

Creative Minds
CHRISTIAN PRESCHOOL

K3 YEAR AT A GLANCE

Creative Minds Christian Preschool is passionate about equipping students with the skills needed to read, write and apply God's Word to everyday life. We have a curriculum that builds a core foundation in these areas.

BIBLE

Learning about who God is and who we are as His children, is fun, engaging and life-changing with our Bible curriculum. Students will encounter God through worship, His Word and prayer in weekly chapels. These powerful truths will then be reinforced daily through games, memory verses, activities and crafts in the classroom.

PHONICS

Through our phonics curriculum students will learn the alphabet, letter recognition, and letter phonetic sounds. Students will learn to recognize their first name and begin writing letters. These standards will be focused on every morning through large and small group instruction.

MATH

Math is made exciting and fun with our core curriculum for all students in the classroom. Students will learn how to count, number recognition, shape recognition and practice writing numbers.

CREATIVE ARTS

Creativity is emphasized throughout the entire day's instruction but is the focal point of afternoon instruction. Students will engage in painting, dance, singing, ceramics, bell choirs and so much more.

HIGHLIGHTS

Students will learn many skills including how to hold a pencil/crayon correctly, how to trace, listening skills, how to play with others, hold conversations and even share. Special events such as holiday parties, fun days and class performances will also occur throughout the year.
